South Park II

I've now completed my edits to the SP MDP and dbase and shipped them to Ed today. In addition to all your notes, I've reorganized and streamlined anywhere possible (reduced almost all duplication.) It's 4 pages shorter than it was originally – even with the addition of nearly a page of text describing the special benefits by parcel type.

When I get his revised ER, all I will need to do is:

- Update one table and a few text sections from the revised ER
- Update all of my pagination to make sure it is current

So I hope we will resubmit SPII in a week or so...

Venice

We just got the database back last Weds (18th) and are working through the comments/revisions now. The MDP is about 60% done. Once we have the dbase squared away, I'll re-send it to Garen and Dennis, and then tackle the MDP completion. That will probably take me a couple of days before I can ship it all to Ed; I imagine it will take him about 2 weeks to do the ER, and then a few days for me to update the MDP with portions of the ER. So...I don't expect we'll be able to submit the MDP/ER for Venice until the third or fourth week of March. The good news is that I'll have attempted to incorporate the SPII feedback into the first draft of Venice, so hopefully it will require fewer changes.

Let me know if you have questions! I hope you are doing better and that life is calming down.

Warmest regards,

SPII

Ed expects to get me his revised ER late tonight or tomorrow. I'll have some tweaks to make to the MDP, but expect to submit the dbase, MDP and ER again by no later than Monday.

Venice

Keep missing Garen but hope to resolve questions in the next few days.

Got an okay from Miranda today on the approach I suggested for assessing lot on the City's OFW parcels.

So it is my hope to complete database and MDP within a week and turn them over to Ed.

So my best guess is that we'll submit Venice in 2-3 weeks depending on when we resolve ?s with Garen and depending on Ed's schedule.
